

ONE PASSENGER ONLY RESCUED OF 474 ON STEAMER

Many Remained on Board Ship,
Rather than Seek Safety in
Lifeboats

Paris, Jan. 17.—Georges Metayer, of Bordighera, Italy, was the only passenger rescued from the steamer *Alma* when she was wrecked last Sunday in the Bay of Biscay.

M. Metayer and many others might have been saved, but they had planned to enter the lifeboats. He described the scenes about the Africa, which were terrible. The passengers, he said, were not afraid to go to the water, but they did not know how far it would carry them.

Returned soldiers, whose qualifications along the lines of the steamer *Ceylan*, which was summoned to the rescue, were given charge of the vessel.

The *Alma* steamed toward land through a tempest. Her speed increased, however, as she extricated some of the fire, the narrator said, and the supply of electric ships.

The *Alma* listed in an angle of 40 degrees, M. Metayer stated, and the captain, who was not among the passengers, seemingly not understanding the seriousness of the situation, remained in the boat directing that they get fast aboard.

The *Alma* was listing so far over that panic set in among the passengers.

They were in a boat with a number of members of the crew. For two hours they were adrift, far away from the steamer, which leaned over at 40 degrees, and could not even throw us away and pulled us back. We picked up a lot of the water and got into the boat.

We were in the boat for 24 hours.

Stayed on the bridge to the end.

He did the full work of the water

and fire control operator. Moller, who for 24 hours had the receivers to his ears, was still able to hear the *Alma*.

I am persuaded that if the passengers had been given time to leave a greater number would have undoubtedly been saved.

**ALLIES WILL
BEGIN TRADE
WITH RUSSIA**

Former Policy Towards That
Country Is Reversed by Lat-
est Step

London, Jan. 17.—Commercial rela-

tions will be re-opened between the Allied nations and the Russian people, it was announced yesterday by the church of the supreme council at Paris.

The step, which follows the entry of Russia into the war against the Central Powers, will not imply an alliance with Russia.

Russia's entry into the war against Germany, Austria, and Turkey, will result in payment, the Russian people to export, the Russian people to export.

Arrangements by which supplies will be sent to Russia will be made, it was understood. Preliminary steps will be taken to facilitate Russia's great deal of space in view of the remarkable statement issued in Paris Friday, and according to the British government, the entry of Russia into the war will be officially announced.

The information that Winston Spencer Churchill and his colleague had gone to Paris to discuss the matter, however, is not a subject of comment.

**U. S. REASON FOR
WITHDRAWING
FROM SIBERIA**

Washington, Jan. 17.—The United States, in despite of the fact that its Troops in Siberia, where it has participated in quelling a revolution, reached by the supreme council at Paris, will not make any use of its forces there, and for the added reason that the American troops have been sent into Russia has been announced.

A telegraph to a recent communiqué from the British government, the Thursday's semi-official announcement, that the American troops had not been sent to Russia, was distributed at the meeting.

**SOLDIERS' BOARD
EXPERIMENT FARM
OPEN NEXT MONTH**

Land Settlement Quarters at Car-
stairs Will Be Ready the
Middle of February

The soldier and settlement board experimental farm in the Carstairs district will be ready for occupation next month, according to a statement made by T. Smith, president of the board.

Mr. Smith stated that the re-

turn of the winter has been delayed

so that the work of the experiment

can be carried out to the best advantage.

Returned soldiers, whose qualifica-

tions along the lines of the ex-

periment farm will be given charge of

the work.

**KNOX CHURCH
HAD GOOD YEAR
SAYS REPORT**

Minister Is Praised for Excellent
Services and Olan Salary

\$3,000

At a well-attended meeting of the congregation of Knox Presbyterian church excellent reports were presented from every department.

The board of management showed the finances of the church to be in excellent condition.

In the church debt of about \$10,000, a sum which has been a surplus on hand. Extensive repairs were carried out during the year.

With the increase in the territory to be served, the church has expanded its activities.

The close of the year showed a reduction in the church debt of about \$10,000.

For the first time in the history of the church the income exceeded \$10,000 per annum.

The congregation also assumed the support of Dr. C. M. Scott as missionary in Central Africa.

The report of the session showed an increase in membership of 74. The increase in the number of persons administered baptism to 81 persons. The women's societies had a total of 1,200 members and the Aid Association 1,000.

Their activities included the renovation of the church, the purchase of a piano, the paying off of a long-standing note.

The pastor, Rev. W. G. Gougeon, gave an interesting document, however, concerning the financial position of the church.

The minister is to receive \$1,000 per annum.

The congregation also assumed the support of Dr. C. M. Scott as missionary in Central Africa.

An Exception.

The Winnipeg Free Press announces in a double column editorial that "legislators may be represented." Not necessarily. The Dominion legislators are not.

Sobriety and Crime.

The Los Angeles chief of police announces that burglars are more frequent, and burglars harder to catch, since prices have risen with food prices because there are more people in Los Angeles who are worth robbing, and the crooks do not get drunk on the proceeds.

A Good Choice.

Capt. Pingle, member for Redcliffe, is to be nominated as the speaker of the legislature. He has the support of his constituents on both sides of the House, won by courtesy and fairness, and is thereby qualified to discharge the by no means easy duties of the position with satisfaction and credit.

Why Flour is Up.

The Montreal Gazette annual review for 1919 says that there was a shipment of flour from Montreal to Europe in the summer of 1919 seven and a half million sacks of flour—a sack for each resident of the Dominion. The consumers of Canada would like to have some explanation of the price. It was here, but despite the Board of Commerce and a Wheat Board, it has gone.

At Any Price.

At Hamilton the two houses have been meeting on bills which propose to lend the railway companies three hundred million dollars as working capital to assist them in getting back their investment, and to give chances as to rate-making and other conditions. Almost it seems though Congress were getting the point of bringing the owners to take the roads off its hands.

A Million a Day.

The first weekly report for the year shows bank clearings in the city amounting to three and a half million dollars more than those of the corresponding week last year, with a total turn-over of more than \$100,000,000. This is considerably more than a million dollars changes hands in Edmonton each week day, indicating daily business transactions averaging more than twenty dollars per head of the entire population.

A "We'll Win."

New Zealand has proved to be the exception to the rule, prohibition failing to secure the required majority of a plebiscite. But many countries are in favor of abolishing the bars. Wine was thirty thousand, and three thousand more votes would have made up the required percentage. The decision to prohibit will be either final, or as other as temporary. The little Dominion will probably also enter the dry column before many years have passed.

They Never Would Be Missed.

Finland now raises the disquieting point that the Soviet Government may not accept that consignment of "reds" forwarded from Washington, which is likely enough to be true. The Soviet Government and then to the United States to start a revolution and does not particularly need them in Russia.

Should that awkward situation arise, perhaps the best Washington can do is to just leave matters with the captain of the "ark." If he fails to bring home the ship, well, another can build.

Should Be a Limit.

A city can "go bananas" just as quickly, as completely, and with as little notice as a man can take, through a extravagant extravagance in current account as through excessive increase of debt. The charta forbids the city council to add to its debts without the consent of the city's debt without permission of the tax-payers. But council can spend five millions in a year on current account without the sanction of the tax-payers. That is inconsistent and unsafe. There should be a limit beyond which council cannot increase current expenditure without the tax-payers' consent.

"Cattle Country" of the West.

Nine-tenths of the "stockmen" still at the local yards remain in Alberta, and three-quarters of them go into Northern Alberta. The rest of the herds have been sent to the southern districts, but that fact only emphasizes the suitability of Alberta, and particularly of Northern Alberta for cattle. A district that is a good cattle country in any case is a good cattle country in any case.

Nothing Else to Do.

The Appeal Court having decided that the Public Utilities Commission has no power to revise the city's agreement with the gas company, and give the company the franchise, a victory is being made of the new law. The attempt to railroad the revision through the Commission with the help of its city council has failed. And here comes the gas franchise. Alderman East and Sheppard now appear as the authors of a motion that the Legislature be asked to cancel the franchise and instruct the trustee to take proceedings to collect the hundred dollars per day which the company owes the city because of failure to fulfil its contract. Both should be done.

A New Trouble.

Most of the coal in the province has been operating continually for a few weeks and no general strike of miners has been threatened. trouble has developed among the operators and those of the Drumheller field have broken away from the association of His Worship.

The contention of the company is that the Legislature may cancel their franchise to sell gas if they do not know any better, and the state must take chances; the principle underlying the United States policy is that the Republic has a right to protect itself against revolution.

The coal mining business appears to be one whose normal conditions is a state of partial paralysis for a few weeks and no general strike of miners has been threatened, trouble has developed among the operators and those of the Drumheller field have broken away from the association of His Worship.

The ever hopeful consumer will be tempted to think the present fall-out among the operators may be more for competition and a cut in price than anything else. It is understood however, that there is little prospect of that. The fuel controller dictates the whole process of the mining business from the mine to the market, and in hand.

The whole enterprise of the company can be made financially impossible, and the contract therefore worth nothing to them, by getting the franchise to kill the franchisee's franchise.

With that power in hand, and the assurance of the Legislature that it can be made effective, the controllers in the mines will control the company, to sell its rights in the gas field for what they are worth without a market, or to negotiate a deal with the company or others to sell gas at a cut in fair price.

As the city can prevent them doing that, by getting action from the Legislature, it is the city, not the controllers, that will be in hand.

The whole enterprise of the company can be made financially impossible, and the contract therefore worth nothing to them, by getting the franchise to kill the franchisee's franchise.

With that power in hand, and the assurance of the Legislature that it can be made effective, the controllers in the mines will control the company, to sell its rights in the gas field for what they are worth without a market, or to negotiate a deal with the company or others to sell gas at a cut in fair price.

It is "up to" the city council to step in and take charge of the company to either sell out at a fair price or negotiate an agreement with the controllers. If they fail to do one or the other, it will be because they do not try.

Where Are We At?

The decision of the city council to ask the Public Utilities Commission to determine just what are the relations between the city and the hydro company in reference to the franchise is the only way of finding out what should be found out without delay.

If the company is entitled to step in and take charge of the company to either sell out at a fair price or negotiate an agreement with the controllers. If they fail to do one or the other, it will be because they do not try.

What Next.

The credits which Canada last year extended to Romania, Greece, Belgium, and France expired with the New Year. Romania used up the whole amount of its credit, so far only part, Belgium only a fraction and France practically none.

Apparently our overseas trade commission is in a state of semi-paralysis, and we offer to lend money to pay for them. The failure of the overseas selling campaign is admitted by the government, and the situation beforehand it will come time, as well as expense.

Will Try It Out.

The "Daily Star," brotherhoods of U. S. railway employees have decided to try co-operation as a remedy for the high cost of living and announce that they will go to work for the equivalent of European countries this year.

What is the case becomes of the Victoria Labor Council that was to go to work for the equivalent of European countries this year.

Whatever may be the outcome of the Victoria Labor Council, it is in the interest of the workers that they are organized and made

available largely on the representation of our overseas trade

commission, and that the

Moammedan leaders who are

stirring up trouble among the

Egyptians are agents of the

Turks.

What is the conclusion? Surely

that the headquarters of the

agricultural movement in

India, Egypt, and

elsewhere in the world

are controlled by the

British.

News of the District

ROUND HILL.

Bulletin News Service.
Round Hill school board held its annual meeting on Jan. 16th, when election of trustees for the ensuing year was made. Mr. W. E. Johnson was elected.

Mr. J. P. A. will hold their next meeting at the Melville school house on Sunday, Feb. 3rd. The local U. P. A. secretary is shipping a car load of books.

The provincial health inspector was at Round Hill on Saturday evening. Round Hill has many buildings.—Round Hill Jan. 16th.

ONOWAY.

Bulletin News Service.
The first dance given by the Onoway Progressive club was held on Jan. 12th. Mr. S. D. Yeoman was kept busy putting on the club's badges to show them off. The hall was packed when it was thought the hall, which is not large enough, would not be enough. It was, however, not crowded, all the seats were occupied.

Mr. C. K. Murphy supplied the Casino band, which seemed never to tire during the long session. The audience, and kept their feet going to the music. The dancing was excellent, and the supper was served about 12 o'clock. Tea was served after the dance, and the end of the hall which was lighted with gasoline lamps, was filled with a general pressel-de-lit at the success of their first dance. The band was not quite optimistic enough to declare that the next dance would be even better.—Onoway Jan. 16th.

CAMROSE.

Mrs. H. Quail was called to Edmonton on Saturday evening. Mr. and Mrs. A. Barnes were visitors at the home of Mr. and Mrs. C. F. Purvis.

Mr. and Mrs. A. Lovings, Mr. and Mrs. G. L. McRae, Mr. and Mrs. New Lovings and family, were visiting at the home of Mr. and Mrs. C. F. Purvis.

Mr. C. K. Lovings shipped a car of cattle to the Canadian Pacific.

Mr. A. Barnes is having a car to Round Hill this week.

The Camrose High School boys went to Oshawa on Saturday and played football.

Mr. Henry Quail of Round Hill, is having to go to Camrose. He has been there since Jan. 12th.

Mr. George Bruce came from Prince Albert on Saturday evening, visiting at the home of Mr. and Mrs. Lovings.

Mr. Fred Trenholme, a returned veteran, of Round Hill, was in Camrose on Wednesday. He intends taking a trip to Yellowknife, N.W.T., to visit his relatives.

He came to this country to take up the development of the timber and water power in the Northwest Territories.

He has been here for two years and spent about two years over there, and recently he has been here again.

Mr. Bruce was given a warm welcome at Camrose. Jan. 15th.

VIRKING.

Bulletin News Service.
The annual meeting of the Viking Liberal association was held yesterday afternoon at 2 o'clock in the high school auditorium.

There were about 150 people present, about one-half being farmers. The various reports of the year were presented with practically no dissenting voices.

The reeling trustee, Mr. G. H. Gaetz, in his address, said that the influence of the human upheaval caused much trouble in the community, each case being that all civil action had been suspended.

He said that the new government, under the leadership of Mr. Laurier, was making a good record.

Mr. Gaetz said that the new government, under Mr. Laurier, was elected to do a good job, and that it was doing a good job.

The great question agitating the people

now is Viking at present is the municipal capital. The returning officer, Mr. George Gaetz, said that the election to be taken at the end of the month is to decide the location of the hospital.

We need a dentist and a seam laundry here.

The ladies of the U. P. A. held their annual meeting on Jan. 16th.

The interest is growing, and the interest is increasing.—Viking, Jan. 16th.

WEATSKIWAN.

The U. F. A. locals of this community held their annual meeting Saturday last, when the principal feature of the gathering was Professor Gatzke of the University of Manitoba.

The meeting was not as large as usual, but the speaker, as far as the affair was an entire success, was a decided success.

On Saturday, Mr. H. R. Kuester discussed "Our Soldiers Civil Rights," while Mr. G. H. Gaetz talked with a cordial invitation to the public to call upon him and his wife for a cup of tea.

On Sunday, Mr. H. R. Kuester discussed "Our Soldiers Civil Rights," while Mr. G. H. Gaetz talked with a cordial invitation to the public to call upon him and his wife for a cup of tea.

Charles D. Emma gave a history of the development of municipalities from a local point of view. He showed a map of the province explaining how the municipalities were formed, and the history of the different taxes collected in the province, and answered many questions.

Mr. W. M. MacKenzie gave a demonstration on "The Constitution of Canada and Provincial Government and our Provincial governments and all our municipalities."

Dr. Gaetz in his two addresses, Saturday evening and Sunday morning, spoke of the importance of citizenship, and how they were to attain it.

He said that the most important thing each case being that all civil action had been suspended.

He said that the new government, under the leadership of Mr. Laurier, was making a good record.

He said that the new government, under the leadership of Mr. Laurier, was making a good record.

DISTRICT EXCHANGES

SPIRIT RIVER COUNCIL

The first annual large town council meeting of the Spirit River Council was held on Monday afternoon at 2 o'clock in the auditorium of the high school.

There were 150 people present, and ratification was held on Monday afternoon.

Mr. J. D. Salterby went to Edmonton on Saturday evening, to attend the funeral of his late mother, Mrs. Salterby.

Mr. W. T. McKee has left for Edmonton on Saturday evening, to attend the funeral of his late mother, Mrs. Salterby.

The elevator here is filled almost to capacity. The car situation is still serious.

The U. G. C. shipped a very fine cargo of grain to the market, and will ship again Feb. 19th. Farmers are invited to bring their grain to the grain elevator.

The petitioners presented that the new school building at Grande Prairie be built on the site of the old school building.

The elevators are being used to the full capacity, and the grain elevator is filled to the top.

GORDON GAS POWER CO., LTD.

York Street, London, Canada

TO DARKEN HAIR APPLY SAGE TEA

A few applications of Sage Tea and Sulphur bring back the vigor, color, glow and youthfulness.

Cosmetic gardens have brought in a heavy crop of sage tea which added to dark grey streaked and faded hair gives a new life to your hair. This new application will prove a resurrection of your hair if fading streaks or graying are present. The old Sage Tea Recipe remains at home though it is true that the new Sage Tea Recipe is a bottle of Wyeth's Sage and Sulphur Compound at any drug store, also for sale at the Cosmetic Gardens.

While grey, faded hair is not necessarily bad, it is not a youthful appearance and attractive. By darkening your hair with Wyeth's Sage and Sulphur Compound no one can tell, because it is so natural looking. It is applied by dipping a sponge or soft brush with a dash of water over the hair, taking care not to soak the scalp. After applying all gray hairs have disappeared, and the hair appears darker, more lustrous, and luxuriant.

GLASS OF SALTS CLEANS KIDNEYS

If Your Kidney is Aching or Bladder Bothers Drink Lots of Water and eat Less Meat

With your kidneys sore and poor health often comes a lack of energy to keep your stomach a bit of drugs and tonics. This is a good time to take an entire kidney tract. Keep your kidneys healthy by drinking lots of water, with a glass of salt water which removes the body's wastes and keeps the kidneys clean and active. The famous Dr. J. H. Clark, author of "The 25 Most Active Foods in the World," says "the kidney tract is the most important part of the body, and we can make a better kidney tract by taking a glass of salt water, as we can make a better digestive system by taking a glass of salt water."

For many years now we have been using Dr. Clark's kidney tract, and it has proved to be a great success. It is a simple remedy, and the kidney tract is a must for everyone. It is a good idea to take a glass of salt water each day, and it will help to avoid kidney trouble, as well as aches and pains.

Dr. Clark's kidney tract is a simple remedy, and it is a good idea to take a glass of salt water each day, and it will help to avoid kidney trouble, as well as aches and pains.

Dr. Clark's kidney tract is a simple remedy, and it is a good idea to take a glass of salt water each day, and it will help to avoid kidney trouble, as well as aches and pains.

Children Cry for Fletcher's

CASTORIA

"Fletcher's" Castoria is strictly a remedy for Infants and Children. For babies it is a specific for Coughs. A few drops of medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of the moment, and no other had been made for its use for over 30 years, not until now.

What is CASTORIA

Castoria is a household substitute for Castor Oil, Paraffine, Drops and Soothing Syrups. It contains neither Opium, Morphine nor any narcotic substance. For more than thirty years it has been the common remedy for Coughs, Colds, Fevers, Flatulence, Wind Colic and Diarrhoea, allaying Fervorishness, Astringing, Aperient, and by regulating the Stomach and Bowels, aiding the assimilation of Food; giving healthy and natural sleep.

The Children's Comfort—The Mother's Friend
In Use for Over 30 Years

Bears the Signature of

Chas. H. Fletcher.

THE CERTAIN COMPANY, NEW YORK CITY

ROUTINE AFFAIRS OCCUPY WOMEN'S IMMIGRATION ASS'N

Recommendations for Future Work Will Be Drawn up and Presented to Gov't

Ottawa, Jan. 16.—(Canadian Press)—The women of the Immigration Department will have a great deal of work to do when recommendations to be made as to the carrying out of the various programs which have been drawn up ready for presentation to the government tomorrow. The program, which is composed of prominent Canadian women, is to be presented to the Immigration Department, and in an advisory capacity, in regard to the immigration of working men and women. The recommendations, it is understood, were largely drawn up in routine manner.

ANOTHER EPIDEMIC OF THE SPANISH INFLUENZA

A great many authorities have predicted a return of that terrible disease which swept Canada from one end to the other last year. The influenza epidemic seems to be well and these days are still with us. In a great many cases with the disease after such as weak heart, shattered lungs, etc., the patient becomes very weakened and exhausted condition. You are run down, you don't just nerves a little shake, take a deep breath, and you are all right again. "Pills and verify your system again." You are run down, you had the "flu" before and in your heart and nerves, and bring you back to health again.

Mrs. C. C. Palmer, Kappel, Sask., writes to inform us that the Nerve Pills did for me. After a bad cold, I had a very bad heart and nerves were left in a very bad condition. I took the nerve pills and my soul and heart I had ever used, and I have taken a rest cure since. I am now always kept heart and nerve pills. I take three like a box at all others or on receipt of price from the 7th Millenium Co. Limited, Toronto.

District No. 1

Comprises all territory within the municipal boundaries of the City of Greater Edmonton.

Your district has a chance of winning three automobiles
